

Poster number	Family Name	First Name(s)	Communication Title
1	Agtzidis	Alexios	Wing shape and size variation in migratory <i>Sylvia</i> warblers: links to ecology and migration
2	Alexandrou	Olga	Delimitation of exclusion zones for wind farm development along pelican flight corridors in northern Greece
3	Alexiou	Giannis	Reviving a traditional practice: stone check dams boost biodiversity on Paros Island
4	Alivizatos	Haralambos	Bird ringing in Rhodopi National Park
5	Angelidou	Ioanna	Eleonora's falcon's insect-based diet during pre-breeding and breeding: a systematic review of trophic interactions
6	Angelova	Radost	First record of <i>Phantia subquadrata</i> (Herrich-Schäffer, 1838) (Hemiptera: Auchenorrhyncha: Flatidae) from Crete: a new planthopper family for the island
7	Antoniou	Theodora	Population genomics and demography of an endemic lizard within an isolated island
8	Antonopoulos	Antonis	Antipredatory responses of two lizard populations to a saurophagous snake
9	Armodoros	Timos	Understanding the effects of isolation and predation on the behavior of an island endemic species: the case study of the Milos wall lizard (<i>Podarcis milensis</i>)
10	Bairaktaridou	Kyriaki	Eight years of monitoring the Dalmatian Pelican (<i>Pelecanus crispus</i>) colony at Lake Chimaditida, Greece
11	Bairaktaridou	Kyriaki	PelicanWatch: A citizen science tool for pelican monitoring and wetland conservation
12	Barboutis	Christos	A potential new migration bootless of European importance for European honey buzzards in southwestern Greece
13	Chalemou Manolidaki	Anna	Feeding ecology of urban populations of the Balkan water frog (<i>Pelophylax kurtmuelleri</i>)
14	Chasourakis	Ioannis	Carabid beetle diversity in olive orchards in relation to the management and the agroecological zone
15	Chatzaki	Elli	Phylogeographical patterns of the Greek snake skink: preliminary results from DNA and niche modelling analyses
16	Chatzinikolaou	Niovi	Urban Wildlife: Biodiversity of the Thessaloniki cityscape
17	Chelmis	Nikos	Seals & Meals: Decoding Mediterranean monk seal diet in the Ionian Sea
18	Christopoulos	Apostolos	Modeling habitat suitability and identifying expansion risk areas for the invasive Coypu (<i>Myocastor coypus</i>) in Greece
19	Christopoulos	Apostolos	Wildlife–vehicle collision risk for small and medium-sized mammals in a Mediterranean biodiversity hotspot
20	Ćirković	Glorija	First record of <i>Zootoca vivipara panonnica</i> (Lac & Kluch, 1968) in Serbia and Republic of Srpska: An insight into distribution and habitat preferences
21	Daftsios	Thomas	Biodiversity assessment of alpine lake ecosystems in the Pindus mountains
22	Danelis	Taxiarchis	Taxonomic and functional diversity of spiders across an anthropogenic Mediterranean landscape on Euboea Island, Greece
23	Daoultzis	Ioannis	An updated mitogenomic phylogeny of Colubrid snakes

Poster number	Family Name	First Name(s)	Communication Title
24	Darmis	Fragkiskos	Capture history modulates behavioral state transitions in a wild rodent model: decoding experience-dependent behavioral flexibility using continuous-time transitions
25	Darmis	Fragkiskos	How behaviour and problem-solving ability influences individual life-history trajectories in a changing world
26	Daskalaki	Eleni	Predation monitoring of <i>Caretta caretta</i> hatchlings by <i>Ocypode cursor</i> and <i>Rattus</i> spp. at Sekania Beach, Zakynthos (Ionian Sea, Greece)
27	Davranoglou	Leonidas-Romanos	Can leaf litter-dwelling arthropods help us understand Balkan biogeography?
28	Deimezis-Tsikoutas	Aris	Effects of tail autotomy on adult male activity patterns and time budgets of a Mediterranean lizard
29	Demertzi	Alexandra	Chestnut (<i>Castanea sativa</i>) forests and their contribution in Woodpecker conservation in Greece
30	Demetriou	Jakovos	Ant biodiversity, ecology and biogeography of Astypalaia island (SE Aegean)
31	Demetriou	Jakovos	Ants of the Akrotiri peninsula (UK SBAs Cyprus)
32	Diamantopoulou	Ioanna	Preliminary mitochondrial phylogeny of <i>Platycephalus najadum</i> reveals deep and shallow evolutionary relationships
33	Dimaki	Maria	Monitoring of the Lesser Kestrel (<i>Falco naumanni</i>) in Lechaina and the surrounding area (NW Peloponnese)
34	Dimaki	Maria	The osteological collection of the National Museum of Natural History Goulandris, Greece
35	Dimaki	Maria	Digital transformation journey of the National Museum of Natural History Goulandris as part of the Distributed System of Scientific Collections (DiSSCo)
36	Drosopoulos	Georgios	Insights on the current White Stork (<i>Ciconia ciconia</i>) breeding population in Greece
37	Garefalaki	Ioanna	Investigating the impact of epigenetic variation on evolution in wild <i>Cyanistes caeruleus</i> pedigrees
38	Gasteratos	Ioannis	Wild boars on Corfu Island... it's complicated on the situation with Wild Boars <i>Sus scrofa</i> on the Greek island of Corfu
39	Gavriilidi	Ioanna	Tame, but otherwise the same - little evidence for consistent changes in behavioural traits of island lizards
40	Georgiadis	Christos	Contribution to the Arthropoda of the Ionian islets
41	Georgiakakis	Panagiotis	The echolocation and social calls of Cypriot pipistrelle bats: evidence for phylogenetic divergence
42	Georgopoulou	Elisavet	Freshwater gastropods at risk: new insights on two rare species from northern Greece
43	Georgopoulou	Elisavet	Hidden biodiversity in Cretan aquatic habitats: A survey of freshwater molluscs
44	Gialama	Alexandra	The genus <i>Poiretia</i> (Gastropoda: Spiraxidae); Taxonomy and biogeography of the species present in Greece
45	Giounouz Oglou	Berkan	Preliminary study of the myrmecofauna of Dodecanese islands, Greece
46	Gonev	Andrej	Roe Deer density estimation in three National Parks of North Macedonia: A baseline for predator-prey management
47	Gotovos	Athanasios	Seeking for hidden invaders: Investigating ants in plant nurseries of Attica region

Poster number	Family Name	First Name(s)	Communication Title
48	Gotsopoulou	Maria Eleni	New phylogeographic insights into <i>Elaphe quatuorlineata</i> (Lacépède, 1789) and the discovery of the Antimilos lineage
49	Iakovidis	Dionysios	Gut microbiome diversity in Greek vipers: A comparative perspective
50	Jovanovska	Daniela	The importance of connectivity of wet meadows in supporting the Macedonian crested newt
51	Kafkaletou Diez	Artemis	First record of <i>Rhinopoma microphyllum</i> Brünnich, 1782 (Chiroptera: Rhinopomatidae) in Europe
52	Kalevra	Natalia	Ecological Corridors towards Species Population Viability: Science, Policy, and Practice
53	Kapsanaki	Vassiliki	Impact of the environment on cognitive behaviour in two populations of the Aegean wall lizard (<i>Podarcis erhardii</i>)
54	Karagianni	Pinelopi	Bird ringing in the Nestos-Vistonis National Park
55	Karagkouni	Maria	Hybridization of the Epirus water frog, <i>Pelophylax epeiroticus</i> (Amphibia, Anura), in Greece
56	Karaouzas	Ioannis	The biodiversity of the Almyropotamos Wetland
57	Karris	Georgios	First breeding colony of Audouin's Gull in Petalioi island complex (S. Evoikos/Greece)
58	Kazila	Eleana	The first Red List of Greek Odonata
59	Kotoulas	Dimitrios	Following footprints: recording Gliridae species in Sterea Ellada and NE Peloponnese
60	Kounousveli	Smaragda	Living among the relics: A multi-approach survey of mammalian diversity in archaeological sites of Greece
61	Koursioti	Sevasti	Move, Adapt, or Die: The genomic diversity of <i>Gypaetus barbatus</i> and the impacts of climate change
62	Koutseri	Irene	The entomological value of Mt. Triklario/Sfika: Orthoptera and Lepidoptera
63	Koutsoukos	Evangelos	Chalcidoidea of Cyprus: Biodiversity, distribution, ecology and biological invasions
64	Koutsoukos	Evangelos	Parasitic wasps (Hymenoptera: Chalcidoidea) associated with Cecidomyiidae (Diptera: Nematocera) in Greece
65	Krisilias	Nektarios	Assessing freshwater gastropod diversity in peri-urban versus urban freshwater ecosystems of Attica, Greece: A Case Study of Vravrona wetland and Chalandri stream
66	Krpach	Vladimir	Cheek-list of alien, pest and invasive insects in Republic of North Macedonia (Lepidoptera, Blattodea, Orthoptera, Zygentoma, Thysanoptera, Coleoptera, Diptera, Hemiptera, Heteroptera and Hymenoptera)
67	Kyriakopoulou	Anna	Wintering phenology and morphometrics of Europe's smallest bird species (<i>Regulus regulus</i> and <i>Regulus ignicapilla</i>), in a lowland woodland in northern Greece
68	Lampou	Anastasia	Spatial and environmental drivers of terrestrial, semiaquatic and aquatic diversity in Aegean islands
69	Lampou	Anastasia	Island freshwater endemism under threat: A preliminary study of two tinodes (Psychomyiidae: Trichoptera) species
70	Lazarević	Maja	Morphometric discrimination of closely related <i>Glyptapanteles</i> species (Insecta: Hymenoptera: Braconidae: Microgastrinae)

Poster number	Family Name	First Name(s)	Communication Title
71	Lioupis	Nikolaos	Assessment of an insular population of the priority species <i>Testudo hermanni</i> : Preliminary findings from Agios Achilleios island, Lesser Prespa Lake
72	Lioupis	Nikolaos	Exploring the micromammal fauna of a karstic limestone plateau on Mt. Triklario, northwestern Greece
73	Loulakis	Ioannis Angelos	Freshwater gastropods of the Louros River and Lake Ziros, Western Greece
74	Lykogeorgou	Marietina	Non-invasive quantification of handling-induced stress in Passeriformes via infrared thermography of the ocular region: a standardized experimental approach
75	Lykogeorgou	Marietina	Thermal dynamics and thermophysiological adjustment in juvenile <i>Sciurus anomalus</i> during short-term captivity: indications of social buffering and behavioral modulation
76	Malakou	Myrsini	A system in flux: how is the Prespa wetland landscape responding to climate change?
77	Malakou	Myrsini	Advancing the understanding of watershed–lake interactions: The case of Prespa Lakes
78	Manolas	Nikos	Review of the Orthoptera biodiversity of Zakynthos Island, Greece
79	Markakis	Grigorios	Seroprevalence and geographical distribution of selected infectious and parasitic diseases in wild carnivores in Greece: A retrospective study (2020-2025)
80	Marnellou	Athina	Behavioral studies of individuals of the rock shrimp <i>Palaemon elegans</i> under the presence of the parasite <i>Bopyrus squillarum</i>
81	Maroulis	Leonidas	Uncovering hidden diversity: A field-based investigation of the endemic land snail genus <i>Tsoukatosia</i> in Greece
82	Mavrogonatou	Katerina	Lights out: Impacts of artificial light at night on benthic communities in a Greek coastal lagoon
83	Maximiadi	MAPIA	Water-usage Behaviour of Eleonora's Falcon (<i>Falco eleonora</i>): Effects of morph, temperature, humidity and presence of conspecifics at its breeding ground
84	Mertzanis	Yorgos	Transboundary cooperation in the SW Balkan region for brown bear (<i>Ursus arctos</i>) habitat connectivity conservation
85	Mitsainas	George P.	Otters in a box: implementing conservation measures for a semi -aquatic mammal in wetlands of the Peloponnese
86	Morfesis	Konstantinos	Investigating the current taxonomy of Blue Throated Keeled Lizard (<i>Algyroides nigropunctatus</i>) using integrative genomics and behavioral approaches
87	Nakas	Georgios	First record of the masked bee species <i>Hylaeus orientalicus</i> in Europe
88	Nakev	Slave	Basic life-history and conservation of the Rock Partridge (<i>Alectoris graeca</i>) in National Park Galichica
89	Nalmpantis	Eleftherios	Bird community structure in Thessaloniki, Greece
90	Nouvaki	Styliani	Bird diversity and composition in a semi-natural, lowland woodland: annual and seasonal changes
91	Ntouzou	Athanasia	Comparing arthropod community composition between urban and natural areas of the peri-urban forest of Ayia Paraskevi in Attica

Poster number	Family Name	First Name(s)	Communication Title
92	Oikonomou	Anthi	Conservation challenges for the charismatic freshwater lamprey <i>Caspiomyzon graecus</i>
93	Panagiotopoulos	Alexios	Unveiling hidden gene flow: Hybridization in endemic Peloponnesian Lizards
94	Papadaki	Chryssa	Exploring the hidden freshwater macroinvertebrate biodiversity of Greece's "dragon lakes" through eDNA: a first national application in alpine ecosystems
95	Papadopoulou	Zoi	Behavioral studies of oviparous individuals of the rock shrimp <i>Palaemon elegans</i>
96	Papagoras	Athanasios Aggelos	Morphological characteristics and variability of the Cyclades blunt nosed viper, <i>Macrovipera schweizeri</i> , throughout its distribution range
97	Paraskevopoulou	Aristea	Genetic and morphological diversity of the Macedonian crested newt (<i>Triturus macedonicus</i>): Taxonomic and conservation implications
98	Paspatis	Ioannis	Contribution to the ant fauna of the United Arab Emirates
99	Pavlou	Valia	Can't fly upwind: Catastrophic mortality of migratory birds on Gavdos Island in spring 2024
100	Pavlov	Aleksandar	Seasonal monitoring of bats in two selected caves in Galičica National Park, North Macedonia
101	Petsi	Danae	Parasitic fauna of two native and one alien fish in the Evrotas River Basin (Greece): A comparative study
102	Postali	Nikoleta	Spying on dormice with artificial nests in protected areas of the Northern Peloponnese
103	Pramatarova	Monika	Towards a barcode database for diversity of <i>Messor</i> ants in Bulgaria
104	Psaralexi	Maria	Connecting people & wildlife on the Balkan Green Belt in Greece and Bulgaria
105	Psaralexi	Maria	Connectivity conservation initiative for fresh drinking water
106	Rammou	Dimitra-Lida	Detecting stress-induced hyperthermia in European ground squirrels using infrared thermography: Implications for conservation physiology of an endangered species
107	Rammou	Dimitra-Lida	Stress responses of the European Ground Squirrel in habitats affected by wind farms – The KATANEMO Project
108	Richter	Collin J.	Examining the impacts of climate change and land-use change on island wildlife communities
109	Serebtyakov	Valentin	Variation of dates of birds' spring arrival in Eastern Europe as a new ecogeographical rule
110	Sfenthourakis	Spyros	Responses of ground and darkling beetle assemblages to tillage and intercropping methods in a dryland multi-treatment carob cultivation
111	Simantiris	Nikolaos	Combining methods for detection of bycatch hotspot areas of marine megafauna species in and around critical rookeries and foraging areas
112	Tampouratzi	Dimitra	Reassessing the taxonomic validity of <i>Aegaeobuthus gallianoi</i> (Arachnida: Scorpiones) as an endemic scorpion species of Crete
113	Tankovic	Eva	Focus on the herpetology of unexplored small Greek islands
114	Tasiouli	Katerina	Genomic study of the genetic structure and molecular ecology of endemic seabird species of the Mediterranean
115	Tasiouli	Katerina	Towards reliable eDNA monitoring of marine megafauna: Challenges in assay transferability and optimization

Poster number	Family Name	First Name(s)	Communication Title
116	Trifonov	Teodor	Monitoring of plant host associations in wild bees: a case study of plasterer and leaf-cutter bees in Bulgaria
117	Tshimanga Blanchet	C'jay ginger	Cataloguing and digitizing marine biodiversity from the Ionian Sea: A taxonomic and conservation assessment of the Helmi's Natural History Museum Collection
118	Tsiopelas	Nikos	Twenty years later: Revisiting the status of Eleonora's Falcon (<i>Falco eleonora</i>) in Greece
119	Tsioutsourigas	Dimitrios	Click, trill, cork, flap and...action, assessing passive acoustic monitoring of Western capercaillie (<i>Tetrao urogallus</i>) in Rila National Park, Bulgaria
120	Vaggeli	Aggelos	Sexual dimorphism of the rock shrimp <i>Palaemon elegans</i>
121	Valeta	Christina	Changes in avian communities during pine forest regeneration after wildfires: A passive acoustic monitoring approach across temporal and seasonal gradients
122	Vlachopoulos	Nick Panagiotis	A first approach to study the functional diversity of ground & darkling beetles (Carabidae & Tenebrionidae) on the Aegean islands
123	Vlachopoulos	Konstantinos	Silent predators in the city: Quantifying the conservation impact of domestic cats on urban wildlife in Greece
124	Vogiatzis	Nikitas	Zoo controlled avian research and husbandry practices for Eastern Black-eared Wheatears: A scalable framework for collaborative species preservation
125	Zevgolis	Yiannis G.	Assessing stress responses in the Eastern broad-toothed field mouse during handling: A survival analysis of escape behavior and physiological traits
